

Girafes

TECHNICAL REQUIREMENTS

The show can be presented as a parade or by making interventions within a time frame to be agreed. It can be developed in enclosed spaces with a minimum of 3,5 meters high. In case it is a parade/parade, it is necessary to take into account the “slow” rhythm of the giraffes.

Approximate duration

- Passes: 2 of 35 min. within a maximum interval of 3 hours (negotiable)
- Parade: 60 min. maximum

Set up

- 2 hours (includes unloading of material and review of the place or performance route)

Pack up

- 1 hour

Requirements

- Dressing room for 4 people, with 4 chairs, 1 table, toilets. It must be conveniently closed or guarded.
- Place to park the company van as close as possible to the dressing room.
- Person responsible for the organization during the event, also 30 minutes before and after the show. The person in charge must indicate the start time.
- Enough mineral water before and after the performance.
- It is recommended to plan an alternative indoor route for the show (minimum 3,5 meters high) in case of rain.
- Route: preferably streets and avenues with commercial activity within the town. 300 meters of route are sufficient.
- Option to perform in squares, parks, commercial areas and any space where there is an influx of people.
- We recommend circular routes with a start and end at the same point. In the case of finishing far from the dressing rooms, it is necessary to plan a space for the van at the end point to collect artists and stilts.
